TAREK RAGAB ABDELSALAM

Junior Cloud Engineer | Cloud Security Enthusiast

Luxor, Egypt | tarekragab2005@gmail.com | 01023820027

linkedin.com/in/tarek-ragab0 | github.com/Tarek-707

OBJECTIVE

Entry-level Cloud Engineer with hands-on foundation in AWS infrastructure, Linux systems, and containerization tools, and a growing focus on Cloud Security. Experienced in deploying and connecting cloud resources (EC2, RDS, VPC) to run and secure real applications. Eager to join a team as a Junior Cloud / Cloud Security professional and grow into scalable, secure cloud environments.

TECHNICAL SKILLS

- Cloud Platforms: AWS
- Operating Systems: Linux (Red Hat, Ubuntu, Kali)
- Containers & Virtualization: Docker
- Version Control: Git
- Scripting & Automation: Bash
- Cloud Security Concepts: IAM, VPC, WAF, CloudTrail, CloudWatch
- Networking: CCNA-level knowledge (Routing & Switching, Subnetting)

TRAINING & INTERNSHIP EXPERIENCE

Cloud Architect – Intern | National Telecommunication Institute (NTI) *2025*

- Completed 120 hours of intensive online training in cloud architecture
- Designed and deployed AWS-based cloud solutions
- Automated server configuration using Bash scripts

AWS Cloud Security Track – Trainee | DEPI (Digital Egypt Pioneers Initiative) *In Progress*

- Currently training on AWS cloud security fundamentals and best practices

PROJECTS

Cloud-Hosted Web Application | Personal Project

- Deployed a web application on AWS, connecting an EC2 instance to a database hosted on RDS
- Configured a custom VPC with subnets and security groups to control network access
- Uploaded application files to the server and configured it to run the site end-to-end
- GitHub: github.com/Tarek-707

HANDS-ON PRACTICE

AWS Cloud Security Labs | Self-Directed Practice

- Completed a structured 30-day Cloud Security practice plan covering IAM, VPC, WAF, CloudTrail, CloudWatch

TryHackMe | Hands-on Labs

- Completed hands-on labs including log analysis and flag extraction using grep-based techniques

AWS Academy | Hands-on Labs

- Completed hands-on labs covering core AWS services and cloud infrastructure fundamentals

EDUCATION

Bachelor of Information Technology

Sinai University | 2023 – 2027 (Expected)

GPA: B+

COURSES & CERTIFICATIONS

- Cloud Architect – NTI, 2025 (120-hour training)
- Red Hat System Administration II
- Red Hat System Administration I
- Ubuntu Linux Essentials

SOFT SKILLS & LANGUAGES

- Soft Skills: Strong Communication, Team Collaboration, Time Management
- Languages: Arabic (Native), English (Professional Working Proficiency)
